

# Corporate Events

the centre for  
computing history

Fun and interactive  
**retro gaming** displays to  
help make your event one  
that people will remember.

## Retro Gaming Events

We'll bring along a number of retro gaming consoles and computers for your guests to play and enjoy.

Ideal for social clubs, team building days or as a feature of a larger event.

From the PONG and Atari 2600 to the first PlayStation and all the greats in between. We even have arcade cabinets available (at extra cost) and can bring along projectors for big screen gaming!

Each game console or computer has a small information panel telling you about the system and when it was released.

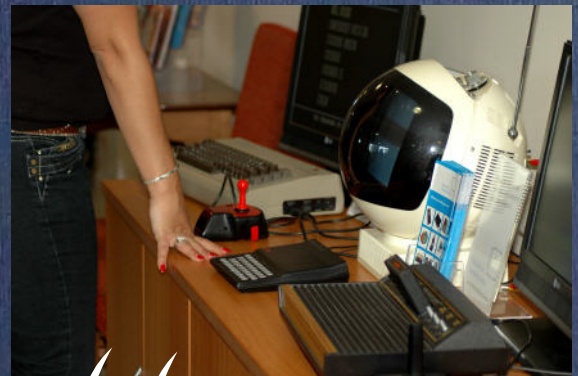

Remember any of these classic systems? Commodore 64, Sinclair Spectrum, BBC Micro, Nintendo NES, Sega Megadrive ... Or what about these great games? PacMan, Space Invaders, Donkey Kong, Super Mario, Sonic the Hedgehog ...

**We'll bring all these and many more!**

All of our equipment is PAT tested and we will bring everything we need to put on a great display. All you need provide us with is some electricity!

Available to book for daytime or evening events. Prices start from £250 depending on scale and location. Book your display now!

... and it's a great way to help support the museum which is a registered charity!

*A fantastic event. Really nostalgic and very interesting. Something that everyone found engaging, not just us geeks!*  
S. Pearson - Activities Co-ordinator

*The most popular of all the feature areas at the show - it got an average 92% approval rating!*  
Matt Hodgins - Gadget Show Live
